
VAHID ETEMADI

<http://vahidetemadi.github.io>

Shiraz University of Technology, Shiraz, Iran

v.etemadi@sutech.ac.ir; +98-936-543-3074

RESEARCH INTERESTS

Software engineering, Software evolution, Software analytics, Search-based software engineering, Socio-technical software engineering

EDUCATION

Shiraz University of Technology, Shiraz, Iran *Aug 2014 - Sep 2021*

Ph.D. in Information Technology, Software Engineering and Distributed Systems Lab, Department of Computer Science and IT.

Thesis: Software Change Management as A Service: A Self-Adaptive Approach

K. N. Toosi University of Technology (KNTU), Tehran, Iran *Aug 2012 - Aug 2014*

M.Sc. in Management Information Systems, Data Mining Group, Department of Industrial Engineering.

Thesis: Improving Recommendation Systems in Social Networks Using Profile Mining

Shiraz University of Technology, Shiraz, Iran *Aug 2008 - Aug 2012*

B.Sc. in Information Technology Engineering, Department of Computer Engineering and IT.

Thesis: Content and Service Distribution over Cloud Computing Environments

PROFESSIONAL EXPERIENCE

Java backend developer at Lipak, Tehran, Iran *Jan 2022 - Present*

I am working as a back-end Java software developer @Lipak.

We serve fronts (SPAs) Restful APIs upon the request they make to manipulate the already defined Models.

The whole architecture follows Spring MVC, and the main tech/framework we are working with are: Spring boot and Postgresql.

We are dependent on the plenty of other techs (libs, packages, etc.), required to develop our app, to move forward with the requirements (mainly those related to develop and maintain Spring boot web application)

Graduate Researcher at Distributed Systems Lab, Shiraz University of Technology Shiraz, Iran *Aug 2014 - Sep 2021*

Making software maintenance more automated through focusing on bug locating and task assignment. Providing a scheduling-driven approach to minimize the *Time* and the *Cost* in bug fixing assignments during maintaining software.

Including *Knowledge Diffusion* as the key objective during fixing task assignment for making development team more robust to developer churn (increasing sustainability).

Internship in Open Source Software Engineering at Pajouhan Matin, Shiraz Technological Park, Shiraz, Iran *Aug 2019 - Dec 2019*

Contributing to open source software such as mxGraph to make it a fit for BPMN systems.

Requirement modeling in UML notation using Visual Paradigm tools.

Adopting software design patterns for machine learning applications.

Visiting Researcher at Universidad Rey Juan Carlos, Madrid, Spain *Apr 2018 - Dec 2018*
Visiting LibreSoft lab at the Department of Telecommunication Engineering under the supervision of Prof. Gregorio Robles and Prof. Jesús M. González-Barahona.

Software Engineer at AsreTelecom, Shiraz Branch, Shiraz, Iran *Sep 2015 - Oct 2017*
Developing and maintaining MS SQL server databases, implementing the main process which take place inside ASAN Internet Service Provider company, designing and implementing reporting dashboards.

Graduate Researcher at IE-Data Mining Group K. N. Toosi University of Technology, Tehran, Iran *Sep 2012 - Sep 2014*
Working on a sample network retrieved from *Facebook.com* to propose a hybrid friend recommendation system.

REVIEWER/SERVICES

IST: Information and Software Technology Journal, Elsevier, 2022-2023

Publicity chair (OSS 2022 and OpenSym 2022) *2022*

MSR hackathon (PC member) *2021*

SQJO: Software Quality Journal, Springer *2021*

ISTE: Iranian Journal of Science and Technology, Transactions of Electrical Engineering *2019*

TEACHING

Lecturer, Faculty of Electronic Learning, Shiraz University, Shiraz, Iran *2019*

Course: Advanced Programming in JAVA

Teaching Assistant, Shiraz University of Technology, Shiraz, Iran *2019*

Course: Computer Architecture

Instructor, Shiraz University of Technology, Shiraz, Iran *2016 - 2017*

Course: Database Systems Lab

Lecturer, Faculty of Electronic Learning, Shiraz University, Shiraz, Iran *2016 - 2017*

Course: Multimedia Systems

Teaching Assistant, Shiraz University of Technology, Shiraz, Iran
Course: Software Engineering

2015 - 2016

AWARDS AND HONORS

Student volunteer at 43th International Conference on Software Engineering (ICSE), Madrid, Spain
2021

Graduate Research Assistant, Shiraz University of Technology *2014 - 2021*

Won the travel grant for visiting LibreSoft research group in the Department of Telecommunication Engineering at URJC, Madrid, Spain (2018)

Student volunteer at 34th International Conference on Software Maintenance (ICSME), Madrid, Spain
2018

Travel Grant from Bitergia to attend 11th Seminar on Advanced Techniques & Tools for Software Evolution (SATToSE) *2018*

Full tuition waiver scholarships for full time master of science students, K. N. Toosi University of Technology. *2012 - 2014*

Full tuition waiver scholarships for full time undergraduate students, Shiraz University of Technology.
2008 - 2012

Ranked top 2% nationwide university entrance exam for Bachelor of Science among more than 300,000.
2008

PRESENTATIONS

Fourth Madrilenian Seminar on Software Research (MADSESE), Universidad Alcalá de Henares, Spain *May 9th 2018*

Title: Software Change Management as A Service: A Self-Adaptive Approach

11th Seminar on Advanced Techniques & Tools for Software Evolution - (SATToSE 2018), Athens, Greek *June 2018*

Presented in open MIC

Title: Self-Adaptive Software Maintenance

SAMPLE COURSES (ACCOMPLISHED)

Advanced Distributed Systems

Semantic Web

Artificial Intelligence

Data Mining

Software Engineering I & II

Database Systems

Algorithms Design

Software Testing

CERTIFICATES

Social Network Analysis

DEC 2013

Grade Achieved: 78.9%

Instructor: Prof. Lada Adamic

Delivered by Coursera.org

PROFICIENCY

Back-end: *Advanced Knowledge of JavaSE, Spring boot, Experience with Python and C#, Familiar with Scala, PHP, Nodes.js*

Front end: *JavaScript, HTML, CSS, Familiar with Vue.js*

CI/CD: *Docker, Experience with Jenkins, Knowledge of GitHub action and Kubernetes*

Web-Service: *Experience with REST, Familiar with SOA, GraphQL*

Database: *Microsoft SQL, MySQL, PostgreSQL, Familiar with Elasticsearch, Firebase*

Software Design (&Tools): *Object-Oriented Design, UML, Visual Paradigm, UML Rational Rose*

Test: *Defect and Bug Discovery, JUnit, Mockito*

Version control: *Git, Team foundation server*

Analytical Tools: *Weka, Gephi*

ML: *Familiar with PyTorch, Weka*

Semantic-analysis: *Knowledge of OWL, RDF, XML, Familiar with Apache Jena, Protégé*

Operating systems: *Linux, Windows*

Big data: *Apache Spark*
